

## ELEGANCE

ELEGANCE from Sørensen Læder is a full grain natural product with a beautiful and exclusive look and is offered in 3 different colours. Elegance is pure aniline and made exclusively from the best raw hides. The leather is tanned with chrome but subsequently exposed to a vegetable tanning process, which gives the leather greater firmness. A unique piece of leather of the highest quality. Colour differences may occur on the hides. For further details: [www.asleather.dk](http://www.asleather.dk)

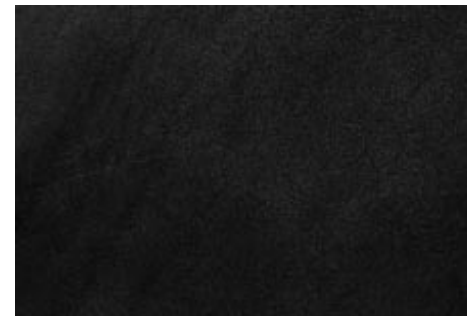

Please note that colour and grain on the original product may differ from the shown pictures in the colour gallery.

Walnut 93

Indian Red 95

Black 98
